

NoodleTools

Create a Book Citation

If citing a book use [WorldCat](#) (a global catalog of library collections) to import the source information directly into the citation form.

- Go to NoodleTools: <http://www.noodletools.com>
- Log into your account

Choose your project and in **Sources** click on **New Source**

Where is it?

Review the imported data and make corrections where needed. Note that NoodleTools makes an intelligent first pass over the data to auto-correct the imported elements based on the citation style you are working with, but you will often still need to make revisions. Click **Continue** to import the source into your project.
