

NoodleTools

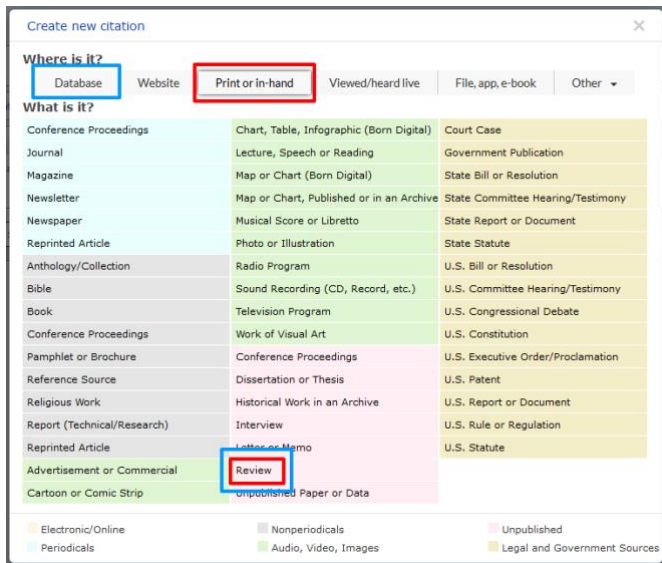

Import a Book Review

Unlike book citations, which can be directly imported from WorldCat, book reviews need to be copied into NoodleTools

- Go to NoodleTools: <http://www.noodletools.com>
- Log into your account

Choose your project and in **Sources**, click on **Create a new citation**

If an article is a digital copy of the original print version (found in PDF format, not HTML) use:

- Print or in-hand
- Review

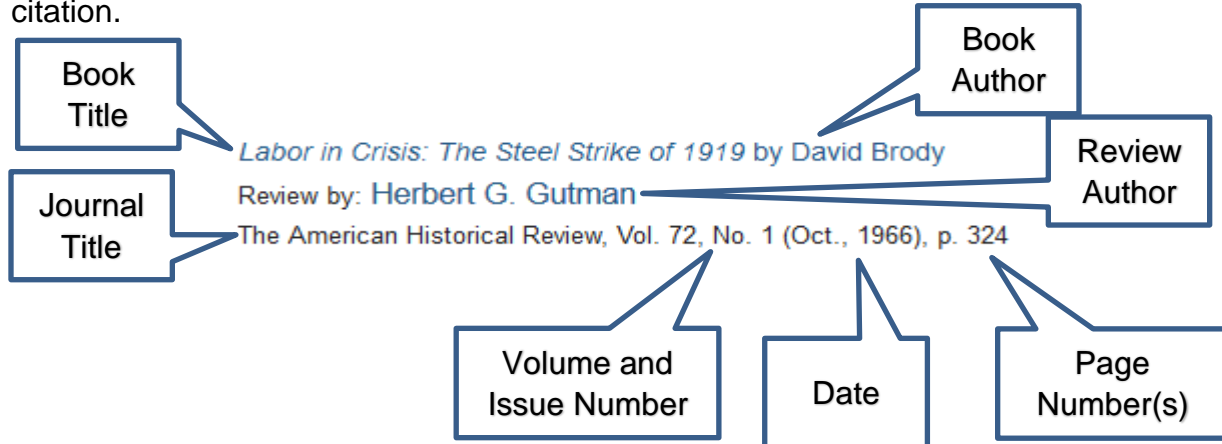

For articles from a database found in HTML format use:

- Database
- Review

- Reviews are cited in the context of the media in which they are viewed. Select from the options: Journal, Magazine, Newspaper, Newsletter, Book, Website or Blog. The majority of book reviews students will use are from journals

Book Review for a Journal

Enter the citation information from the database search results or from the article itself. This is an example from JSTOR and contains all the information needed for a correct citation.

Place the relevant information into the correct NoodleTools fields. In the field “Title of reviewed book” include the book’s author. For example:

Labor in Crisis: The Steel Strike of 1919, by David Brody
